

Premium Add-on device for your home

This spotlight has low power consumption and low heat. It is powered by a dedicated constant current source for LED lamps, effectively controlling the service life and stability of the light source. It also has no radiation, is harmless to the human body, is eye-catching and environmentally friendly, and is suitable for indoor places such as hotels, shopping malls, exhibition halls, restaurants, and offices.

Features

- **Low power consumption and low heat; compared with traditional lamps, our products can save 60% to 80% of energy**
- **It uses a dedicated constant current source for LED lamps to effectively control the service life and stability of the light source**
- **Using high-purity aluminum shell and professional heat dissipation technology**
- **No radiation, harmless to human eyes and body, eye-catching and environmentally friendly**

Specification

- Model Number: R-D70910
- Power Supply: 220 ~ 240VAC, 50 ~ 60HZ
- Working Temperature: -20 ~ 40°C
- Connection: ZigBee 3.0
- Product Size: $\phi 62 \times H82$ mm (55mm hole)
- Color Temperature(CCT): 2700 ~ 6500K
- Lamp Luminous Efficiency: 45
- Lamp Luminous Flux(lm): 450
- Adjustable beam angle: $355^\circ + 25^\circ$
- CRI (Ra): 95
- Light Source: COB
- Lamp Power(W): 10W
- Input current(A): 200MA
- IP Rating: IP20
- Lamp Body Material: aluminum+PC
- Lens material: PMMA
- reflecting shade: PC
