

Product Introduction

The C6 Lock is a high-security ZigBee smart lock with multiple unlocking methods. It sends real-time doorbell notifications to keep users informed of visitors and includes an alarm system to alert users to unusual activity. Integrating with smart home devices, it can activate actions like triggering "Home Mode" upon entry. This enhances both convenience and security, making it ideal for homes, hotels, and various scenarios.

Features

- Various unlocking options available: Fingerprint, password, M1 card, and app.
- 20-digit fake PIN code function
- Temporary passwords
- Built-in doorbell
- Tamper alarm/Unauthorized unlock alarm/Low battery alert
- Emergency power supply via USB interface
- Support integrating with smart home systems

Specification

- Model: C6
- Communication: ZigBee 3.0
- Operation: Semi-automatic door lock
- Input Voltage: 4.6 ~ 6.5 VDC
- Battery: 4 AA alkaline batteries
- Battery Life: 10 months (under stable laboratory conditions at 25°C, with 10 door operations per day)
- Unlock Methods: Fingerprint, Password, M1 Card (Frequency: 13.56 MHz), Remote App Access
- Credential Capacity: 250 sets (Fingerprint capacity: up to 100)
- Lock Body: 6068 standard lock body
- Emergency Interface: USB (5V)
- Operating Temperature: -20 to 60°C
- Operating Humidity: 20 to 95% RH (non-condensing)
